# FAXSTATION™
## POWERED BY SANGOMA®

Achieve 100% error-free Fax-Over-Internet using Sangoma's FAXStation Fax-over-IP Solution which is the most reliable, best performing, analog-to-analog fax service on the market. Its as easy as choosing a fax number, plugging in your fax machine into the on-premise appliance and leting our service take it the rest of the way. Stop worrying about failed faxes; get rid of your T.38 fax setup and guarantee your faxes with FAXStation service by Sangoma.

## 100% Reliable and Secure Fax Over IP with FAXStation Service

The solution consists of a monthly service and a small appliance which works with your existing phone service and alongside any VoIP service making use of a standard data connection.

The sign up process is made simple with our Web Ordering Tool. Choose between our Lite and High service, and select the number of FAX Trunks needed. That's it! visit -> https://www.sipstation.com/

The appliance connects your analog fax machines to Sangoma's cloud-based fax service to guarantee reliable transmission of your faxes, even in low bandwidth applications. While the competition uses the unreliable T.38 fax protocol, FAXStation uses a completely different mechanism which provides the quality of an analog PSTN connection for a fraction of the cost.

No programming or provisioning is required for the gateway appliance, which makes FAXStation a true Plug-and-Play fax solution.

**"Perfect for medical, real estate, legal, offshore communications or any other industry that depends on reliable fax services & quality support."**

### Quick Facts

» Most Reliable IP Fax Solution on the Market
» Local and Toll Free Numbers with Number Porting in 10,000 Rate Centers
» Low Cost Monthly Service for Inbound & Outbound Faxing Along with a DID
» Up to 4 Fax Machines Supported per Gateway Appliance
» 256 Bit Security Encryption

## ADVANCED CAPABILITIES

### Advanced Store & Forward Technology

» Most reliable fax transmission technology (More reliable than T.38)
» Error Correction performed end-to-end to guarantee transmission

### Advanced Features
#### Manage Faxes Online

» Set up incoming fax-to-email, view and archive all incoming/outgoing faxes, resend existing faxes, and upload documents to fax out
» Fully customizable access controls for accounts
» Perfect for organizations with many users

### Benefits
#### Plug-and-Play

The FAXStation appliance comes pre-provisioned and pre-programmed–no need to open firewalls, port forward or set up proxies. Choose your fax number, plug your fax machine into the on-premise FAXStation gateway appliance and start faxing right away. Software updates and patches are installed over-the-air.

#### Ideal for Low Bandwith Connections

FAXStation is the pioneer in providing reliable fax service to the SatCOM markets. Our solution is being used by nearly all major satellite carriers, with a specific concentration in the offshore oil and gas industries.

#### Re-use Existing Fax Machines

» Compatible with virtually all fax machine vendors
» use your fax machine for traditional fax services or efax functionality, such as fax to email
» No need to change your equipment

#### Custom Branding

» Availability to resellers/carriers looking for a fax solution to provide to their customer base
